I don't think this issue comports with any of my programs as per the letter's request.

Also adding the crypto execs letter that Karen previously share that is a point-by-point rebuttal of the Huffman letter.

Hi William,

Can you request the incoming letter so we can get a better sense as to where these go?

Thanks!

Not quite sure who should handle these, but drafts for our three crypto letters. Grant got outreach from DOE about coordinating that response so will want to do that. Who can take these on?

Hi Williams,

First, my apologies, on the first letter, my late effort to re-write the intro sentence resulted in jumbled mess.

I have attached draft letters responding to the other incoming correspondence.

Ex. 5 Deliberative Process (DP)

Please let me know, too, if you'd like to discuss anything.

Best,

Grant

Good Morning William,

Glad that worked. I'll get on the other letters this AM.

Yes, if they can clear the docs, that would be great.

Thanks,

Grant

Yes, this seems exactly spot on. (Sorry for the delay on my end). We can work the clearance process through OCIR staff, if you'd like, but up to you. Happy to set my staff to that to spare you one step, though.

Good evening William,

I have produced a draft response to the house letter. I haven't cleared any of this with OAR or OLEM. However, I wanted to ask if this is what you're looking for on this and the other letters?

If not, do you have time to touch base tomorrow AM?

If so, I'll run the traps on this one and get to work on drafting and running the traps on the others.

Thanks,

Grant
